“An Introduction to Research for Health Professionals”

For professionals new to research or wanting to
update skills

Tuesday 4th February 2014 09:00-12:30
**Clinical Education Centre, Glenfield
Hospital**

- Would you like to use research to improve your clinical practice?
- Would you like to improve your understanding of basic statistics?
- Would you like to learn how to go about publishing your work?

This is a half day course aimed at any allied health professionals
with an interest in developing their research skills.

Attendance: free
